

Driving decarbonization and digitalization. Together.

Internship: Lab support engineer (f/m/div)

Job description

You are a committed student from the field of Electronics, Mechatronics, System Engineering or similar and are looking for a new exciting student job? Infineon Power & Sensor Systems (PSS) delivers future-oriented solutions to provide cutting-edge data transport and to make tools and systems smarter, smaller, lighter and more energy-efficient. Come on board of our growing team in Villach.

In your new role you will:

- **Support** application engineers in the **testing and validation** of **LowVoltage Power MOSFETs**
- **Develop test setups** using automation
- **Design PCB boards** with Altium
- **Document measurement results** and **debugging setups**
- **Assist with day-to-day task** such as **soldering components** and **maintaining lab equipment**

Further Information

Type of employment: Temporary / Part-time (flexible working hours from Monday to Friday between 6 a.m. and 7 p.m.)

Duration: min. 6 months

Profile

You successfully meet the requirements, if you are a motivated and committed student from the field of **Electronics, Mechatronics, System Engineering** or similar. You are best equipped for this task if you additionally offer:

- Basic **understanding** of **semiconductor products**
- Solid **understanding** of **electronic devices** and **lab equipment** like scopes, function generators, power supply and Multimeters
- Good skills with **MATLAB**
- **Hardware skills** in soldering and assembling circuit boards
- Good **communication skills**

Please attach the following documents (German or English) to your application:

At a glance

Location: **Villach (Austria)**
Job ID: **HRC0916482**
Start date: **as soon as possible**
Entry level: **0-1 year**
Type: **Part time**
Contract: **Temporary**

Why Us

#WeAreIn for driving decarbonization and digitalization.

As a global leader in semiconductor solutions in power systems and IoT, Infineon enables game-changing solutions for green and efficient energy, clean and safe mobility, as well as smart and secure IoT. Together, we drive innovation and customer success, while caring for our people and empowering them to reach ambitious goals. Be a part of making life easier, safer and greener.

Are you in?

–Power & Sensor Systems (PSS) drives leading-edge power management, sensing and data transfer capabilities –

Infineon PSS semiconductors play a vital role in enabling intelligent power management, smart sensitivity as well as fast and reliable data processing in an increasingly digitalized world. Our leading-edge power devices make chargers, adapters, power tools and lighting systems smarter, smaller, lighter and more energy-efficient. Our trusted sensors increase the context sensitivity of “things” and systems such as HMI, and our RF chips power fast and reliable data communication.

We are on a journey to create the best Infineon for everyone.

This means we embrace diversity and inclusion and welcome everyone for who they are. At Infineon, we offer a working environment characterized by trust, openness, respect and tolerance and are committed to give all applicants and employees equal opportunities. We base our recruiting decisions on the applicant’s experience and skills.

We look forward to receiving your resume, even if you do not entirely meet all the requirements of the job posting.

Please let your recruiter know if they need to pay special attention to something in order to enable your participation in the interview process.
