

Driving decarbonization and digitalization. Together.

Senior IT Business Analyst – SAP Contract Manufacturing

Job description

Are you driven and passionate about connecting IT and Business? As Senior IT Business Analyst, you will use your supply chain process understanding as well as your SAP functional skills (SAP MM) to further roll-out our S/4 Hana template solution and help to integrate new external production partners. You will be part of a growing global team and a dynamic business environment, where you will have the opportunity to shape Infineon's IT supply chain processes.

In your new role you will:

- Deepen your supply chain end-to-end process knowledge and understand how Infineon is using SAP S/4 to support contract manufacturing processes.
- Learn about overall Infineon IT architecture and system integration.
- Be part of a global IT team supporting the roll-out of Infineon's SAP Template for external production partners.
- Gather business requirements and work together with the solution team on the implementation.
- Lead work packages or smaller IT projects as functional expert, cut-over migration, or test coordinator.
- Responsible for ensuring stable operations after the project go-live.
- Manage relationships with global business / IT stakeholders and external IT service providers.

Profile

You are best equipped for this task if you have:

- Bachelor's or Master's degree in Information Technology, Supply Chain Management, Industrial Engineering or similar.
- At least 3 years of professional experience as an IT consultant, key user, or similar using SAP ERP or S/4 Hana in a related area, ie. MM Material Management.
- Experience in additional areas such as MES systems, supply chain, or master data know-how is a plus.
- Keen interest in IT solutions and new technologies and want to broaden your know-how.
- Passionate and motivated team player with good communication and analytical skills.
- Enjoy coordinating and handling new, complex topics independently.
