

Driving decarbonization and digitalization. Together.

Supply Chain Planning Specialist

Job description

Performs supply chain functions, which may include, but are not limited to, logistics, production planning, inventory control, outsourcing, vendor selection and distribution.

In your new role you will:

- Focuses resources on continuous improvement of the movement of materials through various production processes, and establishes key performance metrics and benchmarks relating to supply chain planning/forecasting to measure actual performance against goals on a regular basis.
- Promotes alignment by understanding and communicating customer needs and requirements throughout the organization.
- Fulfills orders, administration and shipping.
- Processes orders and oversees related activities of third-party vendors to ensure orders flow effectively through systems and processes in accordance with the organization's customer service standards.
- Develops capacity plans to support build-to-stock and/or build-to-order environments.
- Ensures adequate inventory levels are maintained to maximize customer satisfaction, minimize cost and being aligned with the company/ DIV targets (revenue targets).
- Prepares and maintains volume and demand planning analyses and supply and production schedules based on internal and external information to establish and effectively manage an order back log.
- Performs routine assignments in the entry level
- Has conceptual knowledge of fundamental theories, principles and practices
- Has no discretion to vary from established procedures by performing structured work assignments
- Uses existing procedures to solve routine or standard problems
- Receives instruction, guidance and direction from more senior level roles and works under supervision

Profile

You are best equipped for this task if you have:

- 1-3 years vocational / professional training and extensive subject-specific additional qualification (e.g. technician)
- Equivalent to knowledge and skills, as they are usually acquired by a qualified training
