

Driving decarbonization and digitalization. Together.

Student Job: Product Engineer (f/m/div)

Job description

Are you a Master's student with good programming skills looking for an opportunity to start your career in an international and dynamic environment? Then you might be the team player we are missing! Join our Development center in Provence and have a fulfilling apprenticeship experience with us!

As a Product Engineer Apprentice, you will join our Product & Test Engineering team and support them in their daily tasks, from script development to test cost optimizations.

In your new role, you will:

- Support **yield and quality improvement** programs;
- Support **test cost optimizations**: platform migration, test insertion elimination, and yield improvement with test program optimization;
- Support the **script development with Python/R** scripts for tool development.

Profile

You have good communication and organizational skills. You are a team player, willing to cooperate and collaborate with your team members and with other counterparts. You thrive in an international and dynamic environment.

You are best equipped for this task if you have:

- Are a **Master's student** or are about to start a Master's degree program in **Electrical/Electronic Engineering, Physics, Mathematics**, or an equivalent field;
- Have good **programming skills** (MATLAB, Python, R, VBA);
- Having **data analysis and statistics** skills would be a plus;
- Have good **communication** and **organizational** skills;
- Have a **good command of English**.

Benefits

- **Provence (Le Puy ste Réparate)**: Coaching, mentoring networking possibilities; Wide range of training offers & planning of career development; International assignments; Different career paths: Project Management, Technical Ladder, Management & Individual Contributor; Flexible working conditions; Part-time work possible (also during parental leave); On-site social counselling and works doctor; Health promotion programs; On-site gym; On-site canteen; Wage

Why Us

#WeAreIn for driving decarbonization and digitalization.

As a global leader in semiconductor solutions in power systems and IoT, Infineon enables game-changing solutions for green and efficient energy, clean and safe mobility, as well as smart and secure IoT. Together, we drive innovation and customer success, while caring for our people and empowering them to reach ambitious goals. Be a part of making life easier, safer and greener.

Are you in?

– Automotive (ATV) shapes the future of mobility with microelectronics enabling clean, safe, and smart cars –

The **ATV division** is shaping the future of mobility by enabling clean, safe, and smart cars. Its product and solution offering is powering the decarbonization and digitalization of vehicles. By driving the transition to hybrid and purely electric vehicles, ATV is making a valuable contribution to cleaner roads. ATV is also increasingly digitalizing cockpit, infotainment, comfort, and lighting applications as it takes automated driving to the next stage with higher levels of connectivity, security, and safety.

The ATV portfolio integrates sensors, microcontrollers, high-performance memories for specific applications, power semiconductors based on silicon and silicon carbide, as well as components for human-machine interaction and vehicle connectivity. Infineon is the world leader in automotive semiconductors

We are on a journey to create the best Infineon for everyone.

This means we embrace diversity and inclusion and welcome everyone for who they are. At Infineon, we offer a working environment characterized by trust, openness, respect and tolerance and are committed to give all applicants and employees equal opportunities. We base our recruiting decisions on the applicant´s experience and skills.

We look forward to receiving your resume, even if you do not entirely meet all the requirements of the job posting.

Please let your recruiter know if they need to pay special attention to something in order to enable your participation in the interview process.
