

# Driving decarbonization and digitalization. Together.

## Internship: System Engineering (f/m/div)

### Job description

Have you ever wondered how it is to work in a company that shapes the future? We are looking for motivated and committed students who are looking for longer-term employment alongside their studies. The Frontend cluster is responsible for the planning, quality and productivity of its semiconductor manufacturing and drives related process and manufacturing innovations. An exciting working environment characterises this internship as well as an attractive salary. Apply now for this internship in Villach and support our team!

In this internship you get in touch with:

- **Data Analysis & Dashboard Design** – from data to meaningful dashboards
- **Maintaining** existing dashboards in the area of **Analytics, Cleanroom Engineering & Parts Clean**
- **Data Science & Information Technology**
- Interactive **data combinations** between different data sources (Databases, Excel, etc.)
- Assistance in **Cleanroom Engineering Sensor Maintenance** (Change Sensors /Configure Sensors/etc.)
- It is also possible to write your bachelor or master thesis during this internship.

### Further Information

Type of employment: Temporary / Full-time or Part-time (flexible working hours from Monday to Friday between 6 a.m. and 7 p.m.)

Duration: min. 12 months

### Profile

You successfully meet the requirements, if you are a motivated and committed student from the field of **Automation Technology, Information Technology, Mechatronics** or similar. You are best equipped for this task if you additionally offer:

- Knowledge in using **programming languages**
- A **self-organized & structured** working style
- A **logical understanding** and **problem-solving mindset**
- Fluent communication skills in **English** and/or **German**

This position is subject to the collective agreement for workers and employees in the electrical and electronics industry (full-time), employment group B for bachelor students, employment group D for master students (<https://www.feei.at/wp-content/uploads/2023/05/minimum-salaries-white-collar-workers-2024.pdf>).

## Why Us

**#WeAreIn for driving decarbonization and digitalization.**

As a global leader in semiconductor solutions in power systems and IoT, Infineon enables game-changing solutions for green and efficient energy, clean and safe mobility, as well as smart and secure IoT. Together, we drive innovation and customer success, while caring for our people and empowering them to reach ambitious goals. Be a part of making life easier, safer and greener.

**Are you in?**

The **Frontend (FE)** cluster offers a broad range of manufacturing competence specialized in high-quality logic products. The portfolio represents Power, Bipolar, Sensor, Passive and Diode technologies as well as CMOS, RF-CMOS and embedded flash technologies. The manufacturing sites in Dresden, Kulim, Regensburg and Villach are committed to Operational Excellence with strong customer focus.
