

# Driving decarbonization and digitalization. Together.

## Senior Analyst IT Data Business Intelligence & Analytics (f/m/div)

### Job description

Do you enjoy both working technically and enabling others with Data? In this role, you will enable your customers to maximize the value generated by data within a global, company-wide Business Intelligence and Analytics organization. We are fully committed to this organization's strategic impact and we are looking for you to leave your footprint and to work with us on templates that shape Infineon's future. Join us now as a Senior Analyst IT Data Business Intelligence & Analytics!

As a Senior Analyst IT Data Business Intelligence & Analytics, you will support the implementation of BI solutions in the area of Supply Chain Reporting and Analytics.

In your new role you will:

- **Define and align reporting requirements** in close collaboration with the **global supply chain community and IT functional line**
- Be responsible for the **requirements analysis, design, implementation of prototypes and productive solutions** in the area of **Supply Chain Reporting and Analytics**
- **Act as Project Manager in Business Intelligence** projects
- Maintain and evolve the **product portfolio**
- Design and implement **ETL Jobs** and execute **data analysis**
- **Collaborate closely** with **technical and functional architects**

### Profile

You are a technology enthusiast with a self-driven working style and a passion for continuous improvement. You enjoy working in a global environment, respect different attitudes and appreciate the contribution of others. You communicate across different levels, listen actively to your internal customers and consider their points of view to create valuable solutions. Additionally, your strong problem-solving skills and flexibility enable you to remain focused on solutions and to act cooperatively even when under pressure.

You are best equipped for this task if you have:

- A good technical skill set based on a **degree in Information Technology, Computer Science** or related field of studies
- **1-3 years of relevant work experience as an Analyst** in the area of **Business Intelligence & Analytics**

## Why Us

### **Driving decarbonization and digitalization. Together.**

Infineon designs, develops, manufactures, and markets a broad range of semiconductors and semiconductor-based solutions, focusing on key markets in the automotive, industrial, and consumer sectors. Its products range from standard components to special components for digital, analog, and mixed-signal applications to customer-specific solutions together with the appropriate software.

### **– Feel welcome at Infineon Shared Service Center in Porto! –**

Our multifunctional business model is focused on high quality services through operational excellence with engaged people. We are recognized globally at Infineon as a valuable business partner.

These are the main business services on our site: Finance, Procurement, Human Resources, Cyber Security, Robotic Process Automation, IT, Audit, Legal, Compliance, Business Continuity among other areas that consolidate us as a high-quality partner. You will find a very open and approachable working culture at Infineon Porto, focused on promoting our people engagement and well-being at work.

### **We are on a journey to create the best Infineon for everyone.**

This means we embrace diversity and inclusion and welcome everyone for who they are. At Infineon, we offer a working environment characterized by trust, openness, respect and tolerance and are committed to give all applicants and employees equal opportunities. We base our recruiting decisions on the applicant´s experience and skills.

We look forward to receiving your resume, even if you do not entirely meet all the requirements of the job posting.

Please let your recruiter know if they need to pay special attention to something in order to enable your participation in the interview process.
