

Driving decarbonization and digitalization. Together.

Head of Production, Systems and Operations (m/f /div)

Job description

We are looking for a new colleague to manage our production strategically and operationally. Do you live by high quality standards and continually strive for improvements? Do you enjoy further developing production and supporting corresponding projects? We should get to know each other.

In your new role you will:

- **Disciplinary and technical responsibility for the manufacturing area** of embedded systems
- **Implementation of all development projects** in a timely, quality and cost-effective manner
- As an **EMS product manager**, you have a feel for new manufacturing services and embedded products
- You are the **technical contact** for all questions about the projects
Implementation of occupational safety, environmental protection guidelines and import and export guidelines
- You **report directly to management**, as a member of the management group, you help define the company's future strategy

Profile

You are best equipped for this task if you have:

- Completed **master's or technician training** or alternatively completed technical studies, such as **manufacturing technology, electrical engineering or mechatronics**
- Several years of experience in the **EMS manufacturing environment**, such as in order control and order preparation
- Knowledge of **semiconductor components** and passive devices Initial management experience, such as in shift or production management

Why Us

Driving decarbonization and digitalization. Together.

Infineon designs, develops, manufactures, and markets a broad range of semiconductors and semiconductor-based solutions, focusing on key markets in the automotive, industrial, and consumer sectors. Its products range from standard

components to special components for digital, analog, and mixed-signal applications to customer-specific solutions together with the appropriate software.

Hitex GmbH operates independently as a subsidiary of Infineon Technologies AG and is a leading provider in the field of embedded systems. Everything comes together at the company headquarters in Karlsruhe: development and production, sales, marketing and administration are located here. Hitex offers you a variety of tasks that you will solve together in a committed team. Are you looking for a high degree of independence, flexible working hours and many opportunities for personal and professional development? Then look forward to a job with prospects at Hitex.

We are on a journey to create the best Infineon for everyone.

This means we embrace diversity and inclusion and welcome everyone for who they are. At Infineon, we offer a working environment characterized by trust, openness, respect and tolerance and are committed to give all applicants and employees equal opportunities. We base our recruiting decisions on the applicant´s experience and skills.

We look forward to receiving your resume, even if you do not entirely meet all the requirements of the job posting.

Please let your recruiter know if they need to pay special attention to something in order to enable your participation in the interview process.
