

Driving decarbonization and digitalization. Together.

IT Senior Engineer as Product Information Management Expert (f/m/div)

Job description

Do you like to translate customer requirements into IT solutions? Are you passionate about delivering the best experience to Infineon customers? If you have an eye for the big picture, like to bring in new ideas and want to develop them in a global environment, we are looking forward to your application!

As an IT Senior Engineer, you will deliver functional and technical designs of solutions that distribute Product Information to our web ecosystem, marketing channels, e-commerce, and enterprise applications.

In your new role you will:

- Design **solutions for Product Information Management** which support customer's digital journey;
- Support projects for enhancements together with internal and external experts, **proactively engaging** with stakeholders to ensure seamless execution;
- Provide an **in-depth knowledge & technical leadership** for solution implementation;
- **Document, inform, and communicate taken decisions** with close collaboration with applications and domains owners;
- **Present and discuss results on different management levels** within IT and with our internal customers, e.g. Sales & Marketing, Research and Development;
- Assess **risks, availability, capacity, and service level agreements**;
- Act as **subject matter expert** in the area of product information management;
- Support **vendors' and suppliers' backlogs delivery**.

Profile

As a true team player, you cooperate across boundaries, appreciate the contributions of other team members and respect their different attitudes and points of view. At the same time, you have a clear notion of how innovative IT solutions contribute to the commercial success of the company. In order to reach best results, you establish lasting relationships with your customers and listen actively to their thoughts and ideas. Furthermore, you know how to balance those requirements with technical or legal possibilities – and you are able to show them the added value of our available solutions.

You are best equipped for this task if you have:
