

# Driving decarbonization and digitalization. Together.

## Senior Specialist Information Technology

### Job description

#### In your new role you will:

- Key contact between master data consumer representatives and master data solution development, integration and governance teams
- Work on the solution design of material master data and document management (SAP DMS) in an international team from Europe, Asia and North America
- Support the development of IT solutions by understanding business needs and translating them into functional design proposals (i.e. Solution architecture)
- Ensure compliance requirements and the fit to architecture standards by considering the bigger picture
- Manage the implementation with our solution providers as well as contribute to the go-live, cutover and operations support
- Share your knowledge and best-practices with others project team members

### Profile

#### You are best equipped for this task if you have:

- A degree in Business Informatics, Informatics, Computer Science or similar
- At least 3-5 years' professional experience in the SAP environment within the IT department or as a consultant
- Experience in master data management, preferably in SAP
- Experience with SAP Material Management (MM) or SAP Document Management System (DMS) is an advantage
- A holistic understanding of requirements and the ability to convert them into functional and technical designs (i.e. solution architecture)
- SQL knowledge is a plus as part of our master data databases are Oracle SQL databases
- Advanced intercultural skills to collaborate in an international environment
- Strong communication and analytical skills
- Very good English language skills

## Why Us

### **Driving decarbonization and digitalization. Together.**

Infineon designs, develops, manufactures, and markets a broad range of semiconductors and semiconductor-based solutions, focusing on key markets in the automotive, industrial, and consumer sectors. Its products range from standard components to special components for digital, analog, and mixed-signal applications to customer-specific solutions together with the appropriate software.

### **We are on a journey to create the best Infineon for everyone.**

This means we embrace diversity and inclusion and welcome everyone for who they are. At Infineon, we offer a working environment characterized by trust, openness, respect and tolerance and are committed to give all applicants and employees equal opportunities. We base our recruiting decisions on the applicant's experience and skills.

Please let your recruiter know if they need to pay special attention to something in order to enable your participation in the interview process.
