

Driving decarbonization and digitalization. Together.

Project Manager

Job description

Do you want to be part of a team who shapes the future of power managements with products and solutions using GaN devices that make systems more efficient and smarter? Then, we have the right challenge for you! Infineon is a leading innovator in the field of power supply solutions. We are dedicated to pushing the boundaries of technology to enhance the efficiency and performance of automotive systems. We are currently looking for Project Manager to manage chip development projects for controllers and drivers to enable system solutions with our GaN HEMTs.

In your new role you will:

- **Project Management for iGaN / System Projects**
- **Manage chip development projects** for controllers and drivers to enable system solutions with our GaN HEMTs
- **Lead cross functional and multicultural project teams** from various locations, creating the energy and passion to reach ambitious project targets
- **Take full project manager responsibility** for all project targets and plans (milestones, resources, risks, budget, costs)
- Drive to timely project decisions, ensure the progress, and lead through challenges
- Handle the project in a fast and market driven environment with a clear focus on the business objectives, and support customer interactions
- **Own the project** results, deliverables and success.

Profile

You are best equipped for this task if you have:

- A degree in Electrical Engineering, System Engineering, Power Electronics, or comparable
- 5+ years working experience in the semiconductor industry with focus on research and development projects/programs with 3+ year of experience in leading projects

Shavin.Shashidhar@infineon.com

- Project Management skills (IPMA-C certified or willingness to become certified within 1 year)
- Experience of leading cross-functional teams in a matrix organization
- Willingness to travel internationally from time to time, mainly to our locations in Europe and Asia
- Excellent English language presentation skills

Your track record shows the ability to handle multiple interdependency project variables across different sites. You demonstrate strong communication skills through clarity of the message. Your experience in planning, reporting and managing projects builds up the right image for the project in front of upper management. You can find agile solutions for competing resource needs and show case the ability to judge and contain project risks according to project management principles. You enjoy collaborating with other people to find solutions for technical issues. You are open to new ideas and have the passion to develop new and creative ideas. As a true team player you cooperate across boundaries and you like the feeling of achieving something new together with your team. You demonstrate strong communication skills and know how to establish lasting relationships and networks.

Benefits

- **Bangalore:** Coaching, mentoring & networking possibilities ; Wide range of training offers & planning of career development; Regional and local talent programs; International assignments; Career paths: Management career, Project management career, Technical ladder career, Individual contributor career, Professional career; Flexible work timing, Part time work, Work from home; Home office; Health & wellness reimbursement, Employee motivation forum, Spoorthi – Diversity club, Master health check up, Health promotion campaigns; Crèche facility; Annual success bonus; Mediclaim (dependents & top up), Personal accident, Term life; National Pension Scheme; Health promotion programs; Statutory benefits; Access for wheelchairs; On-site canteen; Paid sick leave, long term illness leave; On site Yoga classes, Sports club

Why Us

Driving decarbonization and digitalization. Together.

Infineon designs, develops, manufactures, and markets a broad range of semiconductors and semiconductor-based solutions, focusing on key markets in the automotive, industrial, and consumer sectors. Its products range from standard components to special components for digital, analog, and mixed-signal applications to customer-specific solutions together with the appropriate software.

We are on a journey to create the best Infineon for everyone.

This means we embrace diversity and inclusion and welcome everyone for who they are. At Infineon, we offer a working environment characterized by trust, openness, respect and tolerance and are committed to give all applicants and employees equal opportunities. We base our recruiting decisions on the applicant ´s experience and skills.

Please let your recruiter know if they need to pay special attention to something in order to enable your participation in the interview process.
