- Assist process engineers to improve and sustain equipment performance to meet operations goals

### Profile

You are best equipped for this task if you have:

- Degree in electrical engineering, mechanical engineering or any other relevant technical qualification.
- Good communication skills in English.
- Good knowledge of MS Office.
- Good team player with positive working attitude.
- Willing to learn new things and able to multi tasks in fast pace environment.

### Why Us

#### **Driving decarbonization and digitalization. Together.**

Infineon designs, develops, manufactures, and markets a broad range of semiconductors and semiconductor-based solutions, focusing on key markets in the automotive, industrial, and consumer sectors. Its products range from standard components to special components for digital, analog, and mixed-signal applications to customer-specific solutions together with the appropriate software.

#### **We are on a journey to create the best Infineon for everyone.**

This means we embrace diversity and inclusion and welcome everyone for who they are. At Infineon, we offer a working environment characterized by trust, openness, respect and tolerance and are committed to give all applicants and employees equal opportunities. We base our recruiting decisions on the applicant's experience and skills.

Please let your recruiter know if they need to pay special attention to something in order to enable your participation in the interview process.
