

Driving decarbonization and digitalization. Together.

Indirect Tax Technology Specialist (f/m/div)

Job description

Technology is changing taxation processes. If you are familiar with indirect taxes and want to support implementing global tax requirements and processes into SAP solutions, this is your opportunity! Apply now and join our Global Tax Technology team – in Porto.

As an Indirect Tax Technology Specialist, you will act as an interface between Finance and Tax departments, Supply Chain, Procurement and IT.

In your new role you will:

- Support **Global Indirect Tax team on various projects** (e.g. S4/HANA rollouts, M&A integrations)
- Gather global **indirect tax business requirements**, prepare functional design documentation and support implementation and testing
- **Evaluate and deploy indirect tax technology solutions**
- **Implement and enhance tax tools**, manage **continuous improvement** to ensure tax compliance and automated tax controls and reporting
- **Drive tax technology services** through active global participation
- Analyze **impacts on new or changed business transactions**, such as shipping lanes being reflected correctly in our SAP solution
- Analyze **mass data to ensure correct results** on indirect tax determination
- Create and handle **tax documentation, handbooks and training slides**
- Provide **ad hoc support** to other tax team members where required

Profile

You are a curious highly motivated person, a fast learner, and an effective multitasker. You are capable of using your analytical skills to come up with innovative and compliant tax solutions. Furthermore, you are a strong team player, willing to work with people from different regions.

You are best equipped for this task if you have:

- A **degree in Accounting, Finance, Economics, IT** or equivalent subject
- **Experience in Indirect Taxes** (VAT, GST), additionally having **experience in Accounting** is an advantage
- **Experience in SAP** or strong **IT affinity**
- Understanding in any **SAP VAT add-on, Tax Engine or SAP price condition technique** is favorable
