Driving decarbonization and digitalization. Together.

Engineer Information Technology - Electronic Archiving Services (Contract)

Job description

In your new role you will:

- Carry out programming tasks for eArchive including Change Requests or projects by following development guidelines and delivering the solution within scope, budget, and timeline.
- Perform root cause investigation and provide a solution.
- Provide technical consultation (e.g. application design/development, effort estimation) based on business user requirements and best fit for system operations.
- Perform quality assurance activities (e.g. prepare test cases, unit testing, code review).
- Provide ongoing consulting to business users whenever necessary.
- Capture and deliver documented business requirements and business process flow to developers.
- Communicate to business users to solve issues throughout the development process with a good understanding of the business user's needs and meet their expectations.
- Participate in projects whenever necessary.

Profile

You are best equipped for this task if you have:

- Bachelor Degree's in Computer Science / Information Technology or any equivalent course.
- Intermediate programming like Java, VB script, and PowerShell script.
- Intermediate Web-based programming including ASP.NET, C#, JSP, HTML, XML.
- Knowledge of project management and requirements gathering.
- Strong communication skills.
- Strong analytical and problem-solving skills.
- Ability to work in a team, fast learner, self-driven.

Note: 1-year renewable contract under 3rd party payroll partner and entitled to benefits according to the partner company.

Why Us

Driving decarbonization and digitalization. Together.

Infineon designs, develops, manufactures, and markets a broad range of semiconductors and semiconductor-based solutions, focusing on key markets in the automotive, industrial, and consumer sectors. Its products range from standard components to special components for digital, analog, and mixed-signal applications to customer-specific solutions together with the appropriate software.

We are on a journey to create the best Infineon for everyone.
This means we embrace diversity and inclusion and welcome everyone for who they are. At Infineon, we offer a working environment characterized by trust, openness, respect and tolerance and are committed to give all applicants and employees equal opportunities. We base our recruiting decisions on the applicant´s experience and skills.
Please let your recruiter know if they need to pay special attention to something in order to enable your participation in the interview process.
