

# Driving decarbonization and digitalization. Together.

Electronics technician, industrial electrician or mechatronics technician as maintenance technician in the semiconductor industry (f/m/div)

## Job description

Are you a mechatronics engineer, electronics engineer or industrial mechanic who is looking for the new career opportunities? Then we should get to know each other! No matter if you are from the region of Dresden, Cottbus, Zwickau, Hoyerswerda or from somewhere else: at our location in Dresden you will find what you are looking for! We are expanding our production capacities and are looking for you as a maintenance technician to strengthen our experienced team. Apply easily in 90 seconds with your resume!

The wide variety of systems, different tasks and complex technologies makes the job of a maintenance technician a dream come true. In your new role you will be:

- **Localizing** the system **malfunctions** and **troubleshooting** of electrical, electronic and mechanical assemblies
- Performing **preventive maintenance and servicing measures**
- **Repairing** existing and installing new **systems**
- Providing the facility **inspections**

The continuous shift operation schedule is introduced. The work duration is 8 hours per shift / 36 per week with the rhythm 6/4. The work is proceeded in a cleanroom environment.

## Profile

You are fond of working with complex equipment and understand the technical processes. You are a team player and diligent person.

You are best equipped for this task if you:

- Are a skilled **technician** in the field of electronics, mechatronics, industrial mechanics etc.
- Are fond of **practical work**
- Are ready to work in **shifts** and in **cleanroom**
- Have **high work standards**
- Have a good working knowledge of **German** (minimum B1 level, B2 level preferred)

## Why Us

### #WeAreIn for driving decarbonization and digitalization.

As a global leader in semiconductor solutions in power systems and IoT, Infineon enables game-changing solutions for green and efficient energy, clean and safe mobility, as well as smart and secure IoT. Together, we drive innovation and customer success, while caring for our people and empowering them to reach ambitious goals. Be a part of making life easier, safer and greener.

### Are you in?

The **Frontend (FE)** cluster combines the highest technology and manufacturing expertise to produce innovative and reliable products. The portfolio consists of power, bipolar, sensors, SMART-power and diode technology as well as CMOS, RF-CMOS and embedded flash technologies. The manufacturing sites in Austin, Dresden, Kulim, Regensburg and Villach are committed to "Operational Excellence" with a strong customer focus.

### We are on a journey to create the best Infineon for everyone.

This means we embrace diversity and inclusion and welcome everyone for who they are. At Infineon, we offer a working environment characterized by trust, openness, respect and tolerance and are committed to give all applicants and employees equal opportunities. We base our recruiting decisions on the applicant's experience and skills.

We look forward to receiving your resume, even if you do not entirely meet all the requirements of the job posting.

Please let your recruiter know if they need to pay special attention to something in order to enable your participation in the interview process.
