

Driving decarbonization and digitalization. Together.

Graduate Trainee Program (Metrology Engineer)

Job description

In your new role you will:

- Perform process engineering and production support in one selected assigned area of semiconductor process (Metrology).
- Work as a team between Manufacturing / MNT / UPE / LBS / Technology / Quality to resolve production and quality issues and reduce production line disruptions.
- Support tool installations as well as process & technology transfers to meet company targets, following standard process & tool release business flow.
- Perform FMEA, risk assessment of process changes, with proper process change management.
- Ensure the robustness of processes with Advance Process Control (APC), Statistical Process Control (SPC) and other process control tools.
- Manage recipe and procedural control. Develop and maintain process & operation specifications as well as Out of Control Action Plan (OCAP)
- Perform Gage R&R, Measurement System Analysis (MSA) and calibration method.
- Initiate, coordinate and support excursion prevention, cost reduction and quality improvement projects

Profile

You are best equipped for this task if you have:

- Bachelor / Master / PhD in Engineering / Physics / Statistic or Applied Science.
- 0 to 3 years of experience as process engineer in semiconductor industry.
- Experience / knowledge in metrology, DD or FA equipment is an added advantage.
- Good analytical and data analysis skills.
- Strong communication skills, Self-motivated and good team player.
- Innovative and can work independently to drive technical projects.

Why Us

Driving decarbonization and digitalization. Together.

Infineon designs, develops, manufactures, and markets a broad range of semiconductors and semiconductor-based solutions, focusing on key markets in the automotive, industrial, and consumer sectors. Its products range from standard components to special components for digital, analog, and mixed-signal applications to customer-specific solutions together with the appropriate software.

We are on a journey to create the best Infineon for everyone.

This means we embrace diversity and inclusion and welcome everyone for who they are. At Infineon, we offer a working environment characterized by trust, openness, respect and tolerance and are committed to give all applicants and employees equal opportunities. We base our recruiting decisions on the applicant 's experience and skills.

Please let your recruiter know if they need to pay special attention to something in order to enable your participation in the interview process.
