

Driving decarbonization and digitalization. Together.

Technical Writer

Job description

In your new role you will:

- Develop Presentations for customers and technical documentation, including datasheets, application notes, guides, and manuals.
- Collaborate with product managers, engineers, and other stakeholders to understand technical information and product specifications.
- Create clear and concise content that is easy to understand for both technical and non-technical users.
- Ensure that all documentation is accurate, up-to-date, and meets Infineon standards and guidelines.
- Review and edit existing documentation as needed.

Profile

You are best equipped for this task if you have:

- Knowledge in technical writing and communication.
- Strong technical writing and editing skills with the ability to write clear and concise content.
- Excellent written and verbal communication skills.
- Experience with documentation tools, such as Microsoft Office, Adobe FrameMaker, and DITA tools.
- Knowledge of JIRA, scripting, and programming languages.
- Ability to work independently and collaboratively in a fast-paced, deadline-driven environment.

Why Us

Driving decarbonization and digitalization. Together.

Infineon designs, develops, manufactures, and markets a broad range of semiconductors and semiconductor-based solutions, focusing on key markets in the automotive, industrial, and consumer sectors. Its products range from standard components to special components for digital, analog, and mixed-signal applications to customer-specific solutions together with the appropriate software.

We are on a journey to create the best Infineon for everyone.

This means we embrace diversity and inclusion and welcome everyone for who they
