

# Driving decarbonization and digitalization. Together.

## Working Student: Global Product Management for Ambient Sensing (f/m/div)

### Job description

Would you like to contribute to make the world greener and smarter with Infineon's sensor solutions? As a global semiconductor leader, we enable game-changing sensor solutions for green and efficient energy as well as smart and secure IoT. Join our ambitious team and help to position our innovative products in the market! We are looking forward to your application!

- **Take responsibility:** You prepare and execute go-to-market activities as well as campaigns
- **Take global ownership:** You help the team track the global project opportunities through regular meetings with the regional teams
- **Teamwork is dreamwork:** You interact with various stakeholder groups, e.g. product marketing / application management / technical marketing to drive promotional activities
- **Be creative:** You bring in your own ideas on how to make products more accessible to customers around the world
- **Expand your horizon:** You support strategic product management topics, such as defining go-to-market plans, developing product forecasts and pricing strategies

### Profile

- **Study field:** You are currently studying Industrial Engineering, Economics, Electrical Engineering or similar field of study
- **Experience:** You already gained insights into business development or product management and have experience in dealing with internal & external stakeholders
- **Way of working:** You show a creative mind-set and a self-driven way of working, thinking out of the box and always willing to try out new concepts
- **Personality:** You demonstrate a reliable ability to communicate and balance stakeholder interests
- **Skills:** You possess very good visualization and Microsoft Office skills, especially PowerPoint and Excel
- **Language skills:** You have good English skills, written and spoken, German is a plus

### Benefits

### At a glance

Location:

Job ID: **HRC0807746**

Start date: **Jul 01, 2024**

Entry level: **0-1 year**

Type: **Part time**

Contract: **Temporary**

### **Driving decarbonization and digitalization. Together.**

Infineon designs, develops, manufactures, and markets a broad range of semiconductors and semiconductor-based solutions, focusing on key markets in the automotive, industrial, and consumer sectors. Its products range from standard components to special components for digital, analog, and mixed-signal applications to customer-specific solutions together with the appropriate software.

### **– Power & Sensor Systems (PSS) drives leading-edge power management, sensing, and data transfer capabilities –**

The **PSS division** powers decarbonization and digitalization with a wide range of energy-efficient and digital solutions. PSS semiconductors help avoid carbon emissions, use resources sustainably, manage power effectively and intelligently, give ‘things’ smart senses, and process data quickly and reliably. The portfolio includes power, connectivity, RF, and sensor system technologies to develop smaller, lighter, smarter, and more efficient solutions for consumer devices, smart home/building applications, robotics, computing and data centers, charging devices, power tools, and much more.

The next generation of silicon and wide-bandgap (SiC and GaN) solutions provides unparalleled performance and reliability for 5G, big data, and renewable energy applications. These materials are paving the way for further energy and carbon savings. Highly precise XENSIV sensor solutions are enabling IoT devices to react intuitively to their surroundings for seamless user interactions while audio amplifiers bring exceptional sound experiences to smart speakers and other audio use cases.

### **We are on a journey to create the best Infineon for everyone.**

This means we embrace diversity and inclusion and welcome everyone for who they are. At Infineon, we offer a working environment characterized by trust, openness, respect and tolerance and are committed to give all applicants and employees equal opportunities. We base our recruiting decisions on the applicant´s experience and skills.

We look forward to receiving your resume, even if you do not entirely meet all the requirements of the job posting.

Please let your recruiter know if they need to pay special attention to something in order to enable your participation in the interview process.
