

Driving decarbonization and digitalization. Together.

Senior Staff Specialist Operation Planning & Controlling

Job description

In your new role you will:

- Bachelor Degree in Engineering / Industrial Engineering / Business Administration / Economics / Information Technology or any equivalent field.
- Minimum 8 years of working experience in semiconductor or manufacturing industry.
- Good knowledge in planning for manufacturing processes, especially in Production Planning (PP).
- Good knowledge in Supply Chain systems and tools, preferably in SAP environment.
- Good analytical skills, communication and presentation skills.
- Ability to anticipate issues and challenges and resolving them quickly.
- Strong behavior to strive for excellence and excellent attitude to team up for best results.

Profile

You are best equipped for this task if you have:

- Driving of weekly Production Program (PP) capacity/demand confirmation with the BE Sites and Business Divisions. Follow up and close open topics related to capacity and demand commits.
- Involves implementation of processes, monitoring of KPIs, and implementation of changes to enhance efficiency within Production Planning horizon.
- Cluster wide alignment and optimization of capacities.
- Collaborate & share expertise of business frameworks or solutions across BE Sites.
- Develop and document BE wide planning processes and work methods.
- Drive projects for standardization in planning process/procedures.
- Monitor and manage relevant reports according to the related Business cycle.
- Manage relevant stability indicators for BE Production Planning.
- Partner in monthly/quarterly capacity confirmation process with BE Sites and Business Divisions.

Why Us

Driving decarbonization and digitalization. Together.

Infineon designs, develops, manufactures, and markets a broad range of semiconductors and semiconductor-based solutions, focusing on key markets in the automotive, industrial, and consumer sectors. Its products range from standard components to special components for digital, analog, and mixed-signal applications to customer-specific solutions together with the appropriate software.

We are on a journey to create the best Infineon for everyone.

This means we embrace diversity and inclusion and welcome everyone for who they are. At Infineon, we offer a working environment characterized by trust, openness, respect and tolerance and are committed to give all applicants and employees equal opportunities. We base our recruiting decisions on the applicant 's experience and skills.

Please let your recruiter know if they need to pay special attention to something in order to enable your participation in the interview process.
