

Driving decarbonization and digitalization. Together.

Sr Staff Tech Mfg Equip Maint - Etch

Job description

Are you actively looking for a new career challenge? Do you strive to be part of a global, innovative company? If you are passionate and consider yourself to be determined and ambitious, we have the perfect opportunity for you!

In your new role you will:

- Manage manufacturing and/or production operations including assembly, machinery, processing and/or packaging.
- Set production schedules based on product introduction, equipment efficiency, materials supply, staffing resources, and volume required to meet demand and to ensure maximum production quantity and quality.
- Perform preventative maintenance and repairs on equipment and systems (e.g., mechanical, electrical).
- Evaluate and recommends equipment improvements to improve availability, capability and yield.
- Perform equipment analyses (including preventative and unscheduled maintenance).
- Troubleshoot and diagnose equipment problems.
- Prepare technical reports to document equipment modifications and equipment maintenance procedures.
- Work within defined technical processes and procedures or methodologies and may help determine the appropriate approach for new assignments
- Work with a limited degree of supervision, with oversight focused only on complex new assignments
- Perform highly complex and varied tasks and atypical assignments
- Guid and support junior team members; may assist in their formal orientation and training

Profile

You are best equipped for this task if you have:

- Advanced knowledge in the Etch area and:
- A relevant completed vocational / professional training of at least 3 years,
- Additional subject-specific experience (5+ years), or extended additional subject-specific qualification
- Working experience in a manufacturing environment

Why Us

Infineon designs, develops, manufactures, and markets a broad range of semiconductors and semiconductor-based solutions, focusing on key markets in the automotive, industrial, and consumer sectors. Its products range from standard components to special components for digital, analog, and mixed-signal applications to customer-specific solutions together with the appropriate software.

We are on a journey to create the best Infineon for everyone.

This means we embrace diversity and inclusion and welcome everyone for who they are. At Infineon, we offer a working environment characterized by trust, openness, respect and tolerance and are committed to give all applicants and employees equal opportunities. We base our recruiting decisions on the applicant's experience and skills.

We look forward to receiving your resume, even if you do not entirely meet all the requirements of the job posting.

Please let your recruiter know if they need to pay special attention to something in order to enable your participation in the interview process.

Driving decarbonization and digitalization. Together.

Spansion LLC, is an equal opportunity employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex (including pregnancy, childbirth, or related medical conditions), gender identity, national origin, ancestry, citizenship, age, physical or mental disability, legally protected medical condition, family care status, military or veteran status, marital status, domestic partner status, sexual orientation, or any other basis protected by local, state, or federal laws.

Employment at Infineon is contingent upon proof of your legal right to work in the United States under applicable law, verification of satisfactory references and successful completion of a background check and drug test, and signing all your on-boarding documents.

In some instances, if applicable, U.S. export control laws require that Infineon obtain a U.S. government export license prior to releasing technologies to certain persons. This offer is contingent upon Infineon's ability to satisfy these export control laws as related to your employment and anticipated job activities. The decision whether or not to submit and/or pursue an export license to satisfy this contingency, if applicable, shall be at Infineon's sole discretion.

Infineon Technologies takes data privacy and identity theft very seriously. As such, we do not request personally-identifiable information (PII) from applicants over the internet or electronically. Please kindly refrain from disclosing your PII electronically during the application process or to unauthorized websites that may purport to be Infineon or any of our affiliates.
