

Driving decarbonization and digitalization. Together.

IT Solutions Designer for Sustainability (f/m/div)

Job description

Are you able to quickly establish successful cooperation with others and have an affinity for technical topics? Do you want to be part of a company with ambitious and open-minded colleagues? Then apply now to join us and come experience an amazing multicultural work environment! Don't miss the chance to become our next IT Solutions Designer for Sustainability.

As an IT Solutions Designer within the Sustainability Solutions team, you will act as a consultant for the company, ensuring the smooth operation of IT applications and supporting the strategic decarbonization targets of Infineon. You will also provide functional support as the IT Application Owner for both SAP and non-SAP solutions for Sustainability and Environment, Safety and Health within smaller or medium-sized IT projects.

In your new role you will:

- Act as **in-house consultant** for your IT applications
- **Lead** IT projects
- Actively **support process and system consolidation** activities
- Create **solution proposals and blueprints** for change requests and project requests
- **Ensure software quality for adjustments/development** by external service providers
- Provide **operational IT support for your solutions** (non-SAP and SAP) globally
- Conduct **internal customer training**

Profile

You personally advocate for the concerns of customers and give them a high priority. Furthermore, you clarify areas of responsibility, coordinate your work with colleagues, and regularly exchange information with them. Additionally, you have a good sense for current trends and derive improvement potentials for your own team and the department from them.

You are best equipped for this task if you have:

- A degree in **Computer Science, Business Informatics**, or similar field of studies
- At least **3 years of professional experience**, preferably as a **project manager in IT projects**
- Knowledge in **data integration platforms and databases** (Denodo, MS SAP, Oracle)

Why Us

Driving decarbonization and digitalization. Together.

Infineon designs, develops, manufactures, and markets a broad range of semiconductors and semiconductor-based solutions, focusing on key markets in the automotive, industrial, and consumer sectors. Its products range from standard components to special components for digital, analog, and mixed-signal applications to customer-specific solutions together with the appropriate software.

– Feel welcome at Infineon Shared Service Center in Porto! –

Our multifunctional business model is focused on high quality services through operational excellence with engaged people. We are recognized globally at Infineon as a valuable business partner.

These are the main business services on our site: Finance, Procurement, Human Resources, Cyber Security, Robotic Process Automation, IT, Audit, Legal, Compliance, Business Continuity among other areas that consolidate us as a high-quality partner. You will find a very open and approachable working culture at Infineon Porto, focused on promoting our people engagement and well-being at work.

We are on a journey to create the best Infineon for everyone.

This means we embrace diversity and inclusion and welcome everyone for who they are. At Infineon, we offer a working environment characterized by trust, openness, respect and tolerance and are committed to give all applicants and employees equal opportunities. We base our recruiting decisions on the applicant´s experience and skills.

We look forward to receiving your resume, even if you do not entirely meet all the requirements of the job posting.

Please let your recruiter know if they need to pay special attention to something in order to enable your participation in the interview process.
